

SHOOTING & COMBAT TRAINING SIMULATOR

- Training with IR and Visible Laser
- Training with Real Bullets
- 3D Residential Area Combat Scenario
- Indoor Combat Scenario
- Ambush and Counter Ambush Scenario
- Video-Based Scenario

SHOOTING AND COMBAT TRAINING SIMULATOR

Simssoft Shooting and Combat Training Simulation System provides end to end training solution for Defense Industry, private and public sectors. System provides;

- Real Weapon Recoil Kits,
- Airsoft / Air Guns
- Realistic Scenarios on 3D virtual or video-based environment.

In addition, it shows according to the desired weapon types by reflecting the ballistic features of weapons with high fidelity. The simulation system works with high precision sensors, lasers and real bullets. Detailed firing statistics, scoring, ballistics information evaluation and reporting are provided. Platform Mounted Systems modelling and vibration platform support are provided.

Supported Weapon Systems

CO2 & Green Gas Based Recoil and Laser Mechanisms Pistols; Beretta 92, Canik TP9 SFX, Sarsilmaz, Colt M1911, Sig Sauer, F229, Glock 19

CO2 & Green Gas Based Recoil and Laser Mechanisms Infantry Rifles; MPT-76, MPT-55, AK-47, H&K G3, H&K HK33, M16/M4

Sniper Rifles; KNT-76, Dragunov

Heavy Machine Guns; Rheinmetall MG3, PKM 7.62, MMT

Special Design Mechanism Developments; Mortar Cannon, Platform Mounted Systems

Software Features

- Olympic shooting targets,
- Line of Sight Tracking,
- 2D fixed, moving, rotating targets,
- Customizing target and motion animation,
- Target positioning up to 1200 meters,
- Simultaneous firing tracking with at least 5 shooters on a single system,
- Arranging the scene according to the crawling, kneeling and standing shooting positions,
- Advanced shooting and training with Scenario Based Conflict Simulation.
